	At Keen Home, we aim to wake up the core but unloved areas of the home by rebuilding them with intelligence and beauty. Your home should be a sanctuary, not another source of stress. By adding intelligence, automation, and beauty to these core areas, you will finally have a home that takes care of you, instead of the other way around.

	Condensate from gas burning furnaces, boilers and domestic water heaters are slightly acidic and must be treated to have their pH raised before discharging to a sewer or septic system to avoid damaging pipes and systems. Neutra-Safe condensate neutralizers are designed to raise the pH level of the condensate discharge from your heating equipment and domestic hot water heaters.
