

ABOUT WATTS

A Long History

Watts has a long history: The Company was founded by Joseph E. Watts in 1874. Watts started as a small machine shop supplying parts to the New England textile mills, including manufacturing pressure-reducing and relief valves to ensure the safe operation of water heaters and boilers.

Breadth & Depth

Today Watts, through its leading brands, is a global provider of plumbing, heating, and water quality solutions for residential, industrial, municipal, and commercial applications. Watts offers a wide range of world-class, water-related solutions focused in 5 key areas:

- **Plumbing & Flow Control**
- **Water Quality & Conditioning**
- **Water Reuse & Drainage**
- **HVAC**
- **Municipal Waterworks**

Value Propositions

Watts offers innovative solutions in the three key areas of:

- **Safety and Regulation**
- **Energy Efficiency**
- **Water Conservation**

We can help you address the challenges you face with:

- Code-compliant, certified products that provide the highest levels of performance in safeguarding water systems
- Solutions that efficiently convert energy into heat and hot water
- Products that help promote the conservation of water, an incredibly scarce resource
